

SECURITY IS OUR MOST PARAMOUNT PRIORITY

“ *The Nawi Island security plan is designed to safeguard our visitors and their property to reinforce that critical bond of trust and reliability.* ”

SPML General Manager
Lindsay Lee

It is vital to take note of the following;

- ⇒ Our internationally experienced local team are familiar with the geographical surroundings of the Savusavu area and have a close network and emergency contacts with key local security authorities – Marine Patrols, K9, Police, Army, and Border Control.
- ⇒ Nawi Island sits across the Savusavu Bay and unlike other marinas in the area, the only access to the Marina is via boat, ensuring limited easy access.
- ⇒ 24 Hour CCTV Surveillance, Monitoring & Reporting.
- ⇒ 24 Hour Security Hut & rostered security personnel simultaneously doing hourly on-foot security rounds along berths and on water patrols. They also check moorings to ensure these are secure at all times.
- ⇒ Pontoon Gating & Entrance Security.
- ⇒ Powerful Marina Pontoon lighting.
- ⇒ Every Yacht berthed at Nawi receives an 'arrival pack' which contains direct contact details to our 24hr marina and security team (mobile, email & 24hr VHF channel 16), and medical centres.
- ⇒ The Nawi Island Marina Administration Officers are your first point of contact upon arrival and they always exchange their contact details to all visitors.

“ *We're constantly doing refresher trainings in all aspects of Security Services, Border Controls, Investigations, Fire Safety, and First Aid to strengthen our key responsibilities in the monitoring and security of Nawi Island, our employees and our visitors, their vessels, content, and assets, to mitigate possible risks and threats.* ”

Eliki Gonelevu
Nawi Island Marina Head of Security
